Cosmeceutical products with a marked therapeutic effect that act intensely on hair growth; They help regulate oil production, control and eliminate dandruff and improve the structure of damaged hair.

LINE 1

ANTISEBORREIC PRODUCTS

L1

“ Based on the sebum-regulating properties and excellent cleaning properties ”

The action of these products is based on the sebum-regulating properties and excellent cleaning properties, which are part of the phytocomplexes that come from specifically selected plants such as arnica, horsetail, sage, calendula, juniper, rosemary and pomegranate. Fruit acids and salicylic acid provide a gentle exfoliating effect. The complex of vitamins and minerals, the extract of chilli pepper and the vasodilator components help stimulate hair growth. A pleasant sensation of freshness is achieved thanks to its menthol content.

1.1- DIXIDOX DE LUXE SHAMPOO FOR OILY HAIR

Sebum-regulating shampoo that helps reduce and prevent excess oil, the appearance of dandruff and hair loss. Contains keratin, collagen, vitamins and sebum-regulating actives. Olamine pyroctone exerts an antibacterial and antifungal activity and deeply cleanses the skin of the scalp, improving its appearance. The plant-based active ingredient that comes from avocado, together with an extract of 12 selected plants, helps regulate excess fat and flaking processes.

How to use: The shampoo can be used daily or every other day. Apply to damp hair and massage gently, leave on for 2 to 5 minutes and rinse with plenty of water. For best results use 1.3 Dixidox de Luxe Exfoliator at least once a week before shampooing. It is advisable to apply the 1.4 Dixidox de Luxe Lotion for Oily Hair after shampooing or as recommended by the specialist.

1.3- DIXIDOX DE LUXE EXFOLIATOR

Exfoliating treatment that allows active deep cleaning of the scalp, has a sebum-regulating effect and helps eliminate and prevent the appearance of dandruff. Helps prevent hair loss. Excellent soothing and revitalizing properties for the scalp. Formulated with salicylic acid, apricot kernel powder and natural fruit acids that allow an exfoliation of impurities and superficial dead cells, have a strong moisturising and water retention action and leave the skin fresh, soft and velvety.

How to use: Apply the product to the scalp before washing and massage gently using circular movements. Leave to work for around 5 to 15 minutes and rinse with plenty of water. Use 1-2 times a week or as recommended by the specialist.

1.4- DIXIDOX DE LUXE LOTION FOR OILY HAIR

Antiseborrheic lotion based on sebum-regulating active ingredients, vitamins, salicylic acid and plant extracts that help eliminate and prevent the release of excess sebum. The vasodilator components, chilli pepper and yeast extracts, help reduce hair loss and stimulate hair growth. The lotion has a calming effect on the scalp and reduces the sensation of itchiness.

How to use: Shake before use. Apply to dry or wet scalp, massaging until completely absorbed. It is advisable not to wash the hair immediately after using the lotion to let the active ingredients work. Use 2-3 times a week after washing with 1.1 Dixidox de Luxe Shampoo for Oily Hair or as recommended by the specialist.

LINE 2

ANTI-DANDRUFF PRODUCTS

L2

“ Based on the exfoliating, soothing and cleaning effect ”

The action of these products is based on the exfoliating, soothing and cleaning effect of the complex of active ingredients, such as piroctone olamine, climbazole, salicylic acid, sulphur, as well as the high concentration of vitamins and sebum-regulating components. They bring an unparalleled sensation of freshness to the scalp, relieve itching and help to completely eliminate dandruff and reduce hair loss.

2.1- DIXIDOX DE LUXE SHAMPOO FOR HAIR WITH DANDRUFF

Anti-dandruff action shampoo that helps reduce and prevent flaking processes, excess oil and hair loss. It has soothing properties for the scalp. It contains piroctone olamine and climbazole, ingredients that act against *Pityrosporum ovale*, the yeast-like organism that is the main agent responsible for dandruff. It also contains a high concentration of vitamins and sebum-regulating components. Helps fight itchiness caused by flaking.

How to use: Apply to damp hair and massage gently. Leave on for 2 to 5 minutes and rinse with plenty of water. Use daily for the first 10 days of active treatment and 2 to 3 times a week in the case of preventive treatment. For optimal results, exfoliate the scalp first with 1.3 Dixidox de Luxe Exfoliator once a week and apply 2.4 Dixidox de Luxe Lotion for Dandruff Hair after each wash.

2.4- DIXIDOX DE LUXE LOTION FOR HAIR WITH DANDRUFF

Anti-dandruff lotion that contains a complex of active ingredients, such as piroctone olamine, climbazole, salicylic acid, as well as a high concentration of vitamins and sebum-regulating components. The lotion helps eliminate dandruff, prevents its appearance, relieves itching and regulates the production of sebum. It also helps reduce hair loss, has soothing properties and provides a pleasant sensation of freshness.

How to use: Shake before use. Apply 2-4 ml to dry or wet scalp, massaging until completely absorbed. It is advisable not to wash the hair immediately after using the lotion to let the active ingredients work. Use the lotion 2-3 times a week after washing with 2.1 Dixidox de Luxe Anti-Dandruff Shampoo or as recommended by the specialist.

LINE 3

PRODUCTS TO REDUCE HAIR LOSS

L3

“ All the products in this group contain a complex of hair growth stimulators ”

All the products in this group contain a complex of hair growth stimulators based on placenta extract, adenosine, caffeine, chilli pepper, phytoestrogens, vitamins and inositol. Saw palmetto extract helps to reliably block the activity of the hormone that commonly causes hair loss. The most recent components, CEGABA and Capixyl, have proven stimulatory activity, with no side effects and no tolerance. All the preparations in this group have ingredients to promote microcirculation of the scalp. The presence of keratin, collagen and panthenol in the products determines their positive impact on the hair structure, providing shine and silkiness to the hair. They provide a pleasant sensation of freshness.

3.1– DIXIDOX DE LUXE INTENSE SHAMPOO

Shampoo suitable for the prevention of hair loss. Helps nourish and strengthen the hair follicle and promote hair growth. It contains a complex of hair growth stimulators based on placenta extract, adenosine, caffeine, capsaicin, phytoestrogens, vitamins and inositol. Contains saw palmetto extract, a component that reliably blocks the activity of the hormone that commonly causes hair loss. Promotes microcirculation of the scalp and provides a pleasant sensation of freshness. The presence of keratin, collagen and panthenol provides softness, shine and volume to the hair.

How to use: Apply to damp hair and massage gently. Leave on for 2 to 5 minutes and rinse with plenty of water. It can be used daily or every other day. For optimal results, after using the shampoo, we recommend applying 3.4 Dixidox de Luxe Strong Lotion or 3.4.1 Crexepil de Luxe Strong Lotion.

3.4– DIXIDOX DE LUXE STRONG LOTION

Lotion formulated to reduce hair loss and stimulate hair growth. Contains a complex of hair growth stimulators based on purine and pyrimidine bases (nitrogenous bases that are part of nucleic acids), placenta extract, adenosine, caffeine, capsaicin, phytoestrogens, vitamins, zinc, iron, magnesium, silicon, inositol and sulphur amino acids. It contains saw palmetto extract, the components of which reliably block the activity of dihydrotestosterone, the hormone commonly responsible for hair loss. Helps regulate excess sebum. Promotes microcirculation of the scalp and provides a pleasant sensation of freshness. More resistant, dense and voluminous hair is obtained.

How to use: Shake before use. Apply 2-4 ml to dry or damp scalp and distribute with gentle massaging movements. Do not rinse off the lotion so that the active ingredients can act. Standard treatment is 4 months, unless another option is recommended. Use the lotion after washing with 3.1 Dixidox de Luxe Intense Shampoo.

3.4.1– CREXEPIL DE LUXE STRONG LOTION

Lotion formulated to reduce hair loss and stimulate hair growth. Contains a high concentration of hair growth stimulators based on purine and pyrimidine bases (nitrogenous bases that are part of nucleic acids), placenta extract, adenosine, caffeine, chili pepper, phytoestrogens, vitamins, zinc, iron, magnesium, silicon, inositol and sulphur amino acids. It contains saw palmetto extract, the components of which reliably block the activity of dihydrotestosterone, the hormone commonly responsible for hair loss. Helps regulate excess sebum. Promotes microcirculation of the scalp and provides a pleasant sensation of freshness. More resistant, dense and voluminous hair is obtained.

How to use: Shake before using the lotion. Apply 2-4 ml of lotion to dry or wet scalp and distribute with gentle massaging movements. Do not rinse off the lotion so that the active ingredients can work. The standard treatment is 2 months, then it is recommended to continue for another 2 months with the 3.4 Dixidox de Luxe Strong Lotion treatment. Use the lotion after washing with 3.1 Dixidox de Luxe Intense Shampoo.

3.4.2– CREXEPIL DE LUXE CLASSIC LOTION

Lotion formulated to help reduce hair loss and the gradual thinning process that leads to hair loss. Helps promote the growth of stronger and healthier hair. Contains CEGABA, a new hair growth stimulating agent, balanced concentration of biogenic stimulators from placenta extract, soybean peptides, inosine (nucleoside), vitamin and mineral complex, purine and pyrimidine bases and highly active berry extract antioxidant. The lotion has a stimulating effect on the microcirculation of the scalp due to a derivative of nicotinic acid and camphor. Provides a long-lasting sensation of freshness.

How to use: Shake the bottle before use. Apply 2-3 ml of the lotion to dry or damp scalp. Distribute the lotion with gentle massages. Do not rinse. Apply daily. The minimum recommended treatment is 3 months, unless another option is recommended. For best results, the lotion should be applied after washing with 3.1 Dixidox de Luxe Intense Shampoo.

3.4.3A– FRESH CELLS DE LUXE WONDERCELL LOTION

Lotion that helps reduce hair loss by revitalizing the cells of the hair follicle, helping to promote hair growth and thus achieve stronger and healthier hair. Mixing the lotion with the concentrate demonstrates its synergistic effect. The lotion contains a high concentration of placenta extract, a complex of vitamins, vasodilating agents and sabal extract. The vial contains CEGABA (Gamma-amino-butyric acid); a polyamine that induces and stimulates cellular metabolism, used to prolong the hair growth phase, reducing the amount of sebum and dandruff on the scalp and strengthening the hair follicles until they are more resistant. In combination with sabal extract, apple stem cells, antioxidants, a complex of vitamins and minerals and placenta and soy proteins, a very marked effect on hair growth is achieved, even in the most severe hair loss.

How to use: Add the contents of the vial to the bottle. Shake before use. Apply 2 ml of the lotion on the dry or wet scalp and distribute with gentle massages. Use daily. Do not rinse. The minimum recommended treatment is 3 months or as recommended by the specialist. For best results, the lotion should be applied after washing with 3.1 Dixidox de Luxe Intense Shampoo.

3.4.3B– FRESH CELLS DE LUXE CONCENTRATE

Lotion that helps reduce severe hair loss by revitalizing the cells of the hair follicle for stronger and healthier hair. Contains 6% CEGABA (gamma-amino-butyric acid); a polyamine that induces and stimulates cellular metabolism, used to prolong the hair growth phase, reducing the amount of sebum and dandruff on the scalp and strengthening the hair follicles until they are more resistant. In combination with sabal extract, apple stem cells, antioxidants, a complex of vitamins and minerals and placenta and soy proteins, a very marked effect on hair growth is achieved, even in the most severe hair loss.

How to use: Shake before use. Apply 2 ml of the lotion on the dry or wet scalp and distribute with gentle massages. Do not rinse. Use daily. The minimum recommended treatment is 3 months or as recommended by the specialist. For best results, the lotion should be applied after washing with 3.1 Dixidox de Luxe Intense Shampoo.

3.4.4– CAPIXYL™ + PLACENTA SHOCK DE LUXE LOTION

Treatment lotion that helps prevent hair loss, promotes new hair growth and normalises sebaceous secretion. Formulated with placenta extract with stimulating action on hair growth and Capixyl™, it is a patented complex consisting of a biomimetic peptide of 4 amino acids (Acetyl Tetrapeptide-3) and a red clover extract rich in Biochanin A. It acts directly on the hair follicle helping to increase its size for a better adhesion and vitality. It is highly effective in helping to slow down hair loss. In combination with salicylic acid, a pronounced antiseborrheic effect is achieved. Hydrolysed keratin improves hair structure, providing extra strength, shine and volume.

How to use: Shake the bottle before use. Apply 2 ml of the lotion on dry or wet scalp. Distribute with gentle massages. Do not rinse. Use daily. The minimum recommended treatment is 3 months or as recommended by the specialist. For best results, the lotion should be applied after washing with 3.1 Dixidox de Luxe Intense Shampoo.

3.4.5A– SCIENCE-7 DE LUXE LOTION

Lotion that acts on hair loss helping to prolong the anagen phase of the hair cycle and revitalize the hair follicle. Strengthens fragile and weak hair from the roots and gives it strength, shine and vitality. It is formulated with CEGABA, a polyamine that induces and stimulates cellular metabolism, used to promote hair growth, and bovine placenta extract that helps restore the natural strength of the hair. Its action is complemented by the contribution of a complex of vitamins: C, E, biotin, panthenol and inositol and horse chestnut extract with moisturising and protective properties. Vitamins of group B: B1, B2, B6, B12 and Nicotinamide exert a regulatory activity of the sebaceous gland. It also contains a unique dermophilic complex composed of magnesium, iron, zinc, copper and silicon covalently bound to a polypeptide substrate, improving the hydration of hair and skin and the substantivity of essential mineral factors.

How to use: Shake the bottle before use. Apply 2 ml of the lotion on dry or wet scalp. Distribute with gentle massages. Do not rinse. Apply daily. The minimum recommended treatment is 3 months or as recommended by the specialist. For best results, the lotion should be applied after washing with 3.1 Dixidox de Luxe Intense Shampoo. In cases of severe hair loss and fine hair, we recommend combining with 3.4.5B Science-7 De Luxe Essential Oils. In this case, apply a few drops of the mixture to problem areas of the scalp 3-4 hours after applying 3.4.5A Science-7 de Luxe Lotion.

3.4.5B– SCIENCE-7 DE LUXE ESSENTIAL OILS

Lotion formulated based on a mixture of essential oils and oils with multiple properties on the scalp and hair. It is made up of Jojoba Oil, with regenerative and anti-dandruff effects, Grape Seed Oil, which provides emolliency and hydration for the skin; Lavender Essential Oil, which improves wound healing, regulates sebum production and helps control dandruff; Thyme Essential Oil, which promotes hair growth and slows hair loss; Atlas Cedar Essential Oil, which helps to stop hair loss due to stress and balances oily scalps or scalps with dandruff and Rosemary Essential Oil, which reduces sebaceous secretions, prevents the appearance of dandruff and stimulates hair growth.

How to use: Apply a few drops to problem areas of the scalp and distribute with a gentle massage for 2 minutes. Wrap the scalp in a warm towel for 1 hour. Wash hair after 2-3 hours. To obtain an optimal result, leave the product to work overnight and wash in the morning. Apply daily. The minimum recommended treatment is for 3 months.

*It is contraindicated during pregnancy.

3.4.6– EYELASH LENGTHENING SERUM

Serum formulated to help promote natural lash growth, to strengthen and redensify them. Formulated with Myristoyl Pentapeptide-17, a lipopeptide that stimulates genes that code for keratin and guides cell growth and the secretion of growth factors for greater looking and fuller lashes. Helps lengthen, strengthen and thicken the eyelashes and significantly intensify the definition of the look. When applying it daily the results are visible in 2-4 weeks.

How to use: Always clean the skin before applying the serum and dry with a towel so that no moisture remains on the eyelids. Apply the serum carefully once a day on both the upper and lower lash lines. Wait 1 to 3 minutes for the serum to be completely absorbed, in the case of applying mascara or makeup afterwards. We recommend applying the eyelash serum before going to sleep. To obtain good results, the serum should be applied daily for 6 weeks, although the results are already seen after 2-4 weeks of application.

LINE 4

ANTI HAIR LOSS AND RESTRUCTURING PRODUCTS

L4

“ At the same time, they stimulate hair growth and improve its structure ”

The preparations of this group have a double effect since at the same time they stimulate hair growth and improve its structure. They are ideal for preventing hair loss and improving the structure of hair damaged by the frequent use of chemical treatments such as dyeing, bleaching or perming or exposed to adverse environmental conditions such as sea salt, exposure to the sun or chlorine from swimming pools.

They contain a highly active hair growth stimulating complex based on placenta extract, royal jelly, vasodilator components, inositol, adenosine, caffeine, capsaicin, phytoestrogens and vitamins. In addition, they regenerate damaged hair very well due to their collagen, keratin and panthenol content. After their application, hair acquires shine, strength and volume.

4.5- DIXIDOX DE LUXE KERATIN TREATMENT SERUM

Double action treatment serum that helps stimulate hair growth and restore the structure of dry and damaged hair. It contains green tea extract, which helps stimulate the cellular activity of the dermal papilla and promote hair growth. Soy isoflavones, in combination with a complex of vitamins and minerals, also help prolong the hair growth phase. Hydrolysed keratin promotes the recovery of damaged hair. Adenosine stimulates DNA synthesis and has excellent moisturising properties. After applying the serum, the hair will obtain shine, strength and volume, as well as being easy to comb. Helps eliminate frizzy hair. Protects, hydrates and revitalises the scalp.

How to use: Apply a small amount of the serum (the size of a hazelnut) to damp hair and distribute with your fingertips or with a brush. Do not rinse. Use regularly for best results. It can also be applied to dry scalp to help restore physiological balance.

TS TRAVEL SET

Kit of double action products that help prevent hair loss and improve the structure of the hair fibre. The products contain hair growth stimulating ingredients such as caffeine, placenta extract, royal jelly, adenosine and plant extracts. The high concentration of vitamins, hydrolysed keratin and collagen help to revitalize and repair the structure of damaged hair. After the treatment, the hair acquires shine, strength and volume for a long time.

The Kit contains:

- 4.1 Dixidox de Luxe Keratin Treatment Shampoo 50ml
- 4.3 Dixidox de Luxe Keratin Treatment Mask 50 ml
- 4.5 Dixidox de Luxe Keratin Serum Treatment 50 ml

LINE 5

RESTRUCTURING PRODUCTS

L5

“ They restore
the structure of
damaged hair ”

Products designed to restore the structure of damaged hair due to the exposure of the hair to harmful external factors: environmental, thermal and chemical. They contain a high concentration of active ingredients such as phospholipids, sphingolipids, collagen, keratin, hydrolysed silk, royal jelly extract, algae and vitamins that help restore the structure of the hair both at the cuticle level and at the level of the keratin fibrils of the cortex layer. They hydrate without increasing the weight of the hair. After use, the hair acquires a healthy appearance, with shine, elasticity and additional volume.

5.1– DIXIDOX DE LUXE SILK AND STEEL TREATMENT SHAMPOO

Shampoo that helps to restore the structure of hair damaged due to exposure of the hair to adverse external factors: environmental, thermal and chemical including dye and sun exposure. The high concentrations of active ingredients such as phospholipids, sphingolipids, orchid extract, hydrolysed collagen, hydrolysed keratin, hydrolysed silk, panthenol, royal jelly extract, vitamins and plankton extract allow to restore the structure of the hair at the level of the cuticle and of the keratin fibrils of the cortex layer. Moisturises hair without adding weight. After using the shampoo, the hair acquires extra volume, greater elasticity and shine and with a healthy and radiant appearance.

How to use: Apply to damp hair and scalp and massage into a lather. Leave on for 2 to 5 minutes. Rinse well with water. In case of contact with eyes, rinse immediately. It can be used daily or every other day. For optimal results, use 5.3 Dixidox de Luxe Silk and Steel Treatment Mask after shampooing 1 to 3 times a week. Finish the treatment with 5.5 Dixidox de Luxe Silk and Steel Treatment Spray.

5.1.1– BOTOX LIKE HAIR THERAPY DE LUXE SHAMPOO

Shampoo that provides intense hydration to the hair and scalp. Restructures and nourishes hair without weighing it down. Formulated with hyaluronic acid of different molecular weights, panthenol, hydrolysed silk and honey extract. Suitable for brittle, dry and damaged hair due to exposure of the hair to adverse external factors; environmental, thermal and chemical. Helps protect the hair cuticle improving its appearance. Controls frizz by providing greater elasticity, softness and shine.

How to use: Apply the shampoo to the scalp and damp hair. Massage and leave on for 2-5 minutes. Rinse well with water. For optimal results, use 5.3 Dixidox de Luxe Silk and Steel Treatment Mask after shampooing 1 to 3 times a week. Finish the treatment with the leave-in balm 5.2.1 Botox Like Hair Therapy de Luxe Balm. It can be used daily.

5.2– DIXIDOX DE LUXE SILK AND STEEL TREATMENT BALM

Leave-in conditioning balm that helps to restore the structure of hair damaged by the influence of external adverse factors such as environmental, thermal and chemical factors. The high concentrations of active ingredients such as phospholipids, sphingolipids, orchid extract and hydrolysed silk make it possible to restore the structure of the hair at the cuticle level and the keratin fibrils of the cortex layer. Protects hair from UV rays. On curly hair, it helps to reactivate and fix waves and curls. After using the balm, the hair acquires hydration, elasticity, volume and a healthy and shiny appearance.

How to use: Apply a small amount to damp or dry hair, from root to tip. Do not rinse. For optimal results, use the balm after washing with 5.1 Dixidox de Luxe Silk and Steel Treatment Shampoo.

5.2.1– BOTOX LIKE HAIR THERAPY DE LUXE BALM

Moisturising hair balm based on hyaluronic acid of different molecular weights, hydrolysed silk, panthenol and Castanea sativa extract of organic origin. The chestnut extract nourishes, helps repair and maintains the hydration of the hair when it is subjected to several cycles of thermal and/or chemical treatments. Suitable for all types of hair especially for those most dehydrated, damaged, weak, frizzy and with split ends. Deeply hydrates and acts as a heat protectant. Facilitates styling on wet hair. Provides softness, elasticity and shine for healthier looking hair.

How to use: Shake well before use. Apply from middle to ends on damp or dry hair. Comb. Do not rinse. Suitable for everyday home use. For best results wash hair with 5.1.1 de Luxe Botox Like Hair Therapy Shampoo.

5.3– DIXIDOX DE LUXE SILK AND STEEL TREATMENT MASK

Mask that helps to restore the structure of the hair damaged by the exposure of the hair to harmful external agents; environmental, thermal and chemical, including hair dyeing and sun exposure. The active ingredients: phospholipids, sphingolipids, orchid extract, hydrolysed keratin, hydrolysed silk, lanolin, yeast extract and vitamins help restore the structure of the hair at the level of the cuticle and the keratin fibrils of the cortex layer. After using the mask, the hair acquires an extra volume. It is more hydrated, shiny, with a healthy and radiant appearance.

How to use: Apply the mask to the scalp and hair and massage gently. Comb the hair several times. Leave to work for around 5 to 15 minutes. Rinse with plenty of water. It can be used up to 3 times a week on very damaged hair. For optimal results we recommend washing with 5.1 Dixidox de Luxe Silk and Steel Treatment Shampoo. Finish the treatment by applying 5.5 Dixidox de Luxe Silk and Steel Treatment Spray.

5.5- DIXIDOX DE LUXE SILK AND STEEL TREATMENT SPRAY

Replenishing lotion designed for the gentle and deep care of the hair and scalp. It has a moisturising effect and soothing and cooling properties. Eliminates the adverse effects generated by the exposure of the hair to harmful external agents such as chlorine, salt or chemical treatments. Contains alpha hydroxy acids that help renew the skin's surface, removing dead cells, while preventing dehydration and smoothing the skin's texture. It also contains hydrolysed DNA and RNA fragments that have the ability to provide hydrating and toning effects to the skin. Its content rich in proteins that come from hydrolysed silk and hydrolysed keratin help to restore damaged hair and provide softness and shine to the hair.

How to use: Shake before use. Apply to dry or wet scalp, massaging until completely absorbed. The product can also be applied to the hair after washing. Do not rinse. For optimal results wash with 5.1 Dixidox de Luxe Silk and Steel Shampoo and use 5.3 Dixidox de Luxe Silk and Steel Treatment Mask 1 to 3 times a week.

5.5.1- INSTANT AMINO ENERGIZER DE LUXE LOTION

Protective lotion for the scalp and hair used to prevent itching, redness and irritation associated with chemical treatments, such as dyeing, bleaching and perming, and to protect hair from harmful agents. Its formula rich in betaine and panthenol provides hydration, softness and protection for sensitive scalps. The keratin and the mixture of conditioning agents act deeply on the hair fibre, improving its structure and increasing elasticity, softness and shine.

How to use: Shake before use. Mix the content of half a vial in the colouring cream or bleach, the permanent liquid or the relaxer cream and mix well until a homogeneous texture is obtained. Apply the remaining product on hair and scalp after washing. Do not rinse. For optimal results wash with 5.1 Dixidox de Luxe Silk and Steel Shampoo and use 5.3 Dixidox de Luxe Silk and Steel Treatment Mask 1 to 3 times a week.

FOOD SUPPLEMENTS

L8

“ Acts from inside the body, providing the hair with nutrients to stop hair loss ”

The decrease in the nutritional value of the food we eat, the current intense pace of life, environmental factors such as pollution and solar radiation, hormonal changes or stress, cause us deficiencies in vitamins and minerals that affect the correct metabolism of hair, skin and nails.

Feeding beauty from the inside is the most effective treatment we can offer our bodies to help maintain healthy hair, hydrated skin and strong nails.

8.0- DSD DE LUXE COMPLETE

A food supplement that acts from inside the body, providing the hair with the nutrients necessary to prevent and stop hair loss, as well as strengthening and enhancing its growth. In addition, it contributes to the maintenance of the skin in normal conditions and restores the health of weakened nails thanks to its composition based on vitamins, minerals, amino acids, antioxidants and plant extracts. It also contains inhibitors of the enzyme 5- α -reductase, responsible for converting the hormone testosterone into dihydrotestosterone (DHT), the main cause of alopecia.

How to use: We recommend taking 2 capsules a day.

Opium Line.

The action of these products is based on the effectiveness to stop hair loss, revitalize the hair follicle and increase the density and thickness of hair. Its formulation incorporates a high concentration of placenta extract, niacinamide, caffeine and adenosine that stimulate the hair follicle, saw palmetto extract as a natural inhibitor of the hormone responsible for hair loss, poppy extract which helps improve the microcirculation of the scalp and vitamin E with excellent antioxidant properties. Shiny, fuller and healthier hair is achieved.

LINE 8

ANTI HAIR LOSS & REVITALIZING PRODUCTS

L8

“ Helps to stimulate blood flow and provides the necessary nutrients to the hair ”

Hairline indicated to stop hair loss. Its products contain caffeine, niacinamide, Sabal and poppy extract, in addition to Placenta extract, which helps promote hair growth by elongating the hair fiber and increasing the number of follicles. Accelerates cell division and the expression of Growth Factors by increasing the size of the hair follicles and the length of the hair.

7.1– OPIUM SHAMPOO

Mild shampoo for daily use that helps prevent and reduce hair loss. Helps strengthen hair and promote growth. Revitalises and improves the microcirculation of the scalp. Formulated with powerful natural active ingredients: bioprotein, niacinamide, caffeine, poppy extract, Serenoa serrulata extract, adenosine and vitamin E, it promotes the growth of healthy hair, adding volume to fine and weakened hair.

How to use: It can be used daily as a treatment base or as a prevention. Apply to damp hair and scalp and massage into a lather. Leave it on for a few minutes so that the active ingredients work and rinse with plenty of water. For best results, use Opium 7.4 Lotion daily for 3 months. Do not rinse.

7.3– OPIUM MASK

Regenerating double action mask that helps stimulate hair growth and improve its structure. Stimulating ingredients include caffeine, placenta extract, poppy extract, Serenoa serrulata extract, niacinamide, and adenosine. Its content in shea butter, mango butter, grape seed oil and panthenol protects and prevents dehydration of the hair fibre, restoring flexibility and natural shine to the hair. The hair acquires more strength, volume, softness and manageability.

How to use: Apply a generous amount of product on the scalp and wet hair and massage gently. Leave to work for around 5 to 15 minutes. Rinse with plenty of water. For best results wash hair with 7.1 Opium Shampoo.

7.4– OPIUM LOTION

Lotion that treats and prevents hair loss and helps stimulate hair growth. Strengthens and protects the hair follicle, promoting the growth of stronger hair. Its formula contains a complex of hair growth stimulators: caffeine, placenta extract, adenosine encapsulated in nanoliposomes, as well as vitamin E with antioxidant properties, Serenoa serrulata as an inhibiting ingredient of the hormone responsible for hair loss, niacinamide that helps regulate sebaceous secretion and poppy extract that promotes microcirculation of the scalp. Stronger, denser and healthier hair is obtained.

How to use: Shake well before use. Apply 2 ml of the lotion on dry or wet scalp and distribute with a gentle massage. Do not rinse and let the active ingredients do their job. The minimum recommended treatment is 3 months or as recommended by the specialist. For best results wash hair with 7.1 Opium Shampoo.

SkinCare

Your face and body deserve the best care. Regardless of skin type, it is essential to adopt a facial and body beauty routine to hydrate your skin and slow down skin ageing.

VIPER-AKE

ANTI-AGING LINE

“ With an immediate tightening and anti-aging effect ”

The Viper-Ake anti-aging line is developed based on mimetic peptides with an immediate tightening and anti-ageing effect that improves the firmness and tone of the skin, in addition to hydrating and nourishing it.

V001 VIPER-AKE GLOBAL ANTI-AGING CREAM

Facial cream that acts directly on the expression lines of the forehead, eye contour and lips. It contains a new 4% anti-wrinkle compound based on a tripeptide that mimics the effect of Waglerin 1, a peptide found in the venom of the snake *Tropidolaemus wagleri*, responsible for the inhibitory activity of muscle contractions. Advanced formula with hydrolysed collagen, 4% Aloe Vera extract, vitamin E and rosehip oil, which instantly hydrates and protects the skin.

How to use: Apply on clean skin. Massage especially in areas with fine lines.

V002 VIPER-AKE GLOBAL ANTI-AGING SERUM

Serum with a light formula that contains a new 4% anti-wrinkle compound based on a tripeptide that helps minimize facial muscle contractions that directly influence the appearance of fine lines and wrinkles. Contains 2% encapsulated adenosine, hydrolysed collagen, Aloe Vera extract, vitamin E and rosehip oil. These ingredients provide a soft sensation to the skin, help to unify its tone and reinforce its anti-ageing action.

How to use: Apply morning and evening to clean skin before using your moisturiser. Apply more on areas with fine lines.

V003 VIPER-AKE GLOBAL ANTI-AGING EYE CONTOUR

Rapidly absorbing eye contour cream containing a new 4% anti-wrinkle compound based on a tripeptide whose inhibitory effect on muscle contractions helps reduce the depth of fine lines, wrinkles and crow's feet caused by repeated facial movements. Contains argan oil, shea butter, grape seed oil and a soft focus agent that has a blurred optical effect on the eye contour, leaving a silky smooth sensation.

How to use: Apply morning and night. Spread gently using fingertips to activate microcirculation.

MATRIXFILL

ANTI-WRINKLE LINE

“ Promote skin repair and help reduce the volume and depth of wrinkles ”

The Matrixfill anti-wrinkle line contains matriquines that promote skin repair and help reduce the volume and depth of wrinkles and fine lines in photoaged skin, giving it softness, elasticity and smoothness.

M001 MATRIXFILL ANTI-WRINKLE CREAM

Multi-action cream with 3% Matrixyl®3000 that helps to improve the elasticity and firmness of the skin, acts on photo-aged skin and enhances the natural skin repair process. Keeps skin looking smooth and healthy. Contains Argan oil and allantoin.

How to use: Apply morning and evening gently massaging the face, neck and neckline.

M002 MATRIXFILL ANTI-WRINKLE SERUM

Serum with a lightweight formula that helps reduce the appearance of wrinkles and improves the elasticity, tone and firmness of the skin. Contains 4% Matrixyl®3000, an anti-ageing agent that enhances the skin repair process to achieve a natural and rejuvenated appearance.

How to use: Apply morning and night. Apply 3 drops gently massaging the face, neck and neckline.

M003 MATRIXFILL ANTI-WRINKLE EYE CONTOUR

Rapidly absorbing eye contour cream with 3% Matrixyl®3000 that helps reduce the main signs of ageing by enhancing the natural skin repair process. Formula with Argan oil, Shea butter and a soft focus agent that exerts a blurred optical effect on the contour of the eye, leaving it completely soft, smooth and with a beautiful natural and satin appearance.

How to use: Apply morning and night. Spread gently using fingertips to activate microcirculation.

HAND CREAM

INTENSIVE SKINCARE CREAM

6.1

“ Provides protection, softness and firmness against harmful external agents ”

Our hands say a lot about us. They are constantly exposed to changes in the weather, pollutants and household products, among others, causing stains, dryness, cracks or premature photoageing.

However, on many occasions our hands are greatly forgotten and we do not dedicate the care or time to them that they deserve. Therefore, it is essential to include a good hand cream in our daily routine to keep them hydrated.

6.1 INTENSIVE SKINCARE CREAM

Rapidly absorbed moisturising hand cream with a non-greasy texture that provides protection, softness and firmness against harmful external agents. Enriched with shea butter and betaine, its pleasant texture penetrates the deepest layers of the skin and improves the appearance of hands from the first application.

How to use: Apply a small amount and massage until completely absorbed. Apply as many times as necessary.
